EP Electronic High Output Sign Ballasts

Transco introduces **NEW** EP Electronic Sign Ballasts designed specifically to conserve energy while maintaining full brightness. Five versatile designs are for use in every type of electric sign using T12 or T8 High Output fluorescent lamps. The benefit of parallel wiring reduces labor costs and the need for additional ballast wire.

Transco's EP ballasts are the *logical* choice for quality and conservation.

- UL Listed, Type 2, Class P
- Conserves Energy by as much as 40% over conventional ballasts.
- Integrated Circuit Automatically Increases Power to the Lamps in Temperatures Below 40°F.
- High Power Factor
- Parallel Wiring for Easier Installation
- Allows the use of ALL lamp sizes from 18" to 120"
- For Use with T12 and T8 High Output Lamps
- 5 Models Cover ALL Lamp Combinations from 18-in. to 48-ft.
- Allows for Multi-Lamp Configurations in a Single Line
- Type "HL" Rated for Use in Hazardous Locations.

***5 Year Warranty!**
